

10/23/2024 Gate Updates

The Chukker Creek Gate remains closed to incoming traffic. However, a guard has been stationed at the gate for school hours, Monday through Friday, 6:30AM to 8:00AM and 2:00PM to 3:30 PM. We understand the inconvenience this creates but this gate is not considered a main entrance and our security protocol with any failure at The Chukker Creek Gate is to close it. We do not have the ability to staff the gate full time as there are no facilities or shelter to accommodate personnel. The part has not been delivered. Tracking states it is en route but does not provide a timeframe for delivery. As soon as the repair has been made and the gate is open, a mass email will be sent. Due to the nature of the damage, we suspect a vehicle attempted entry after the power had been lost thus, the arm did not lift and caused extensive damage to the internal mechanism.

The needed parts for barcode transmission at the East Gate has been installed and is operating as usual. If you received a barcode after the Hurricane and it was not working, that issue has now been resolved and barcode transfers are performing as expected.

Please be aware that on Thursday October 24th and Friday October 25th there will be people stationed at the Main, Village and East Gates interacting with vehicles entering and exiting through these gates. Please be considerate and careful as you pass through these gates.
