

10/11/2024 Update

Chukker Creek gate remains closed to entry only. You can exit the gate. The part to repair has been ordered, updates to follow once the gate is open again.

We continue to communicate daily with The City of Aiken and as soon as we have updates regarding residential debris removal, we will communicate that to the community.

Until we know the City of Aiken's storm debris pick up process, please do not DUMP your storm debris in POA common area's or vacant lots throughout the community. This lack of attention to our request may cost the WPPOA additional dollars to have this debris removed, which may cost all property owners' additional money for debris pickup.

C & R Tree Service will be working today to remove broken branches and leaning trees. Please be aware that they may be on our roads.

Main sidewalks are not totally clear but you will be able to walk on them. Please be careful.

As a reminder, all previous emails are posted on the WPPOA website as well as a list of tree vendors.
