

SOAK UP - THE - Season

EXPLORE WOODSIDE'S WALKING TRAILS

Woodside's extensive trail system offers something to enjoy in every season. Whether you're looking for a leisurely neighborhood stroll, a peaceful nature walk, or a more challenging hike, our scenic network of sidewalks and trails provides the perfect opportunity to get outside, stay active, and experience the natural beauty of the community. No matter the time of year, there's always a new path to discover just outside your door.

WOODSIDE PERIMETER SIDEWALK – 7 MILES

Woodside's most popular walking route, this "lollipop"-shaped sidewalk trail is within easy walking distance of most homes. The 1-mile stem connects to a 6-mile loop and also ties into several nature trails along the way. It's perfect for daily walkers, joggers, and those looking to build mileage.

THE VILLAGE TRAILS

Connected to Woodside by a paved and lighted 0.25-mile path from the Reserve Club parking area, The Villages offer a variety of paved circular routes plus a 1.5-mile perimeter nature trail that winds through natural terrain. Enjoy nearby businesses and amenities while getting your steps in. Parking is available at P1 and P2.

THE RESERVE PARK OVAL – 0.25 MILES

A paved oval track set in a beautifully landscaped horticultural setting, this short and scenic loop is ideal for a quick walk or gentle exercise. Parking is adjacent at P3.

THE MEADOWS LOOP TRAIL – 0.6 MILES

A flat dirt nature path that loops around The Meadows neighborhood. Add an extra 0.2 miles by circling the Meadows Park sidewalk. This easy route is great for relaxed walks. Parking near Meadows Park at P4.

THE CREEK WALK – 0.5 MILES

One of Woodside's hidden gems, this shaded circular trail follows Cottonwood Creek and crosses wooden bridges along the stream bed. Features include a walkout observation deck, a small nature library, and plaques identifying native trees and flora. Access is available from the Woodside Perimeter Sidewalk, with parking at P5.

THE MILL ROAD TRAIL – 1.0 MILE

A peaceful 0.5-mile out-and-back trail along the timbered area of the Hollow Creek Land Preservation Area. It currently ends near the 16th green of the Reserve Golf Course and may be expanded in the future.

THE OAKMAN TRAIL – 2.1 MILES

This wooded "lollipop"-style trail winds between golf course holes, crosses the Oakman Lake dam, travels along Woodside Plantation Drive, and features a scenic zig-zag bridge before returning to the Trail Head Parking area. Two pedestrian access points connect from the Perimeter Sidewalk.

AZALEA TRAIL – 1.5 MILES

Named for native azaleas along a stream bed, this shaded trail offers beautiful scenery and a surprisingly good workout. Though only 1.5 miles in-and-out, its hills and loops make it more challenging than it appears.

THE HOLLOW CREEK TRAIL – 5.0 MILES

Woodside's premier nature trail, this 5-mile "lollipop" loop follows the perimeter of the Hollow Creek Land Preservation Area. Expect wooded paths, occasional golf course views, and a crossing at Anderson Pond Dam. Ideal for those seeking a more serious hike.
